Service	SEK/per unit
SMS terminated in Telia's network	0,3000
MMS terminated in Telia's network	0,8000

Origination / Numbers and Services with Reverse Charge 2)

(Appendix A8 in the reference offer for interconnect)

Change types: **N**= New data, **C**= Changed data, **R**= Removed data

Originating A-number (Traffic from)	SEK/call	SEK/minute
All numbers	0,0000	0,0220

Numbers handled with reverse charge
Free call services, 020
Telephone directory services for disabled, 118400
Operator prefix, 95XY
Services of social importance nature, 116xxx

1) Refers only to the traffic part.

In order to have access to content services within the number series, the other Party must have a separate content service agreement and invoicing with the Service Provider or that this has been ensured in another way accepted by the terminating operator and the Service Provider. If this condition is missing, the terminating operator has no obligation to connect traffic to the services.

2) The Operator compensates the other Party for calls from the other Party's Network Connection Point to the other Party's Connection Point according to so-called reverse charging with compensation applicable to Termination in the other Party's Telecommunication Network.
