1 General information

This Price List for Telia Wholesale Fiber describes how prices for the Product are determined. The price for the Product consists of a One-time Charge and a Monthly Charge. The respective charges are described below and tables with prices are included in the document.

The cost of the One-time Charge and the Monthly Charge for a specific requested connection with the desired design is shown in the Customer Portal either as a quote or in a manually generated quote after the quotation procedure, as chosen by the customer.

The **One-time Charge** for the Product is determined by the price category for the relevant geographical area and the agreement period. The One-time Charge consists of one or more of the following parts:

- Establishment Charge - charge for establishing a connection, according to the table in section 2.1.
- Connection Charge - charge where the establishment of a new Connection Point is required, according to the table in section 2.2. This is usually when re-connecting a building within a Fixed Price Area.
- Network Expansion Charge - charge for the expansion of the Access Network outside the Fixed Price Area, for the expansion of the Transport Network outside the Urban Area and for certain options. The Network Expansion Charge is stated in the quote after the quotation procedure.

The Product's **Monthly Charge** is determined according to one or, where applicable, two components

- Access Charge as per the description and tables in section 3.1
- Transport Charge per the description and tables in section 3.2.

The prices stated in section 4 apply to available **Options** and **Other Charges** are stated in section 5. **Discounts** are stated in section 6.

All amounts are stated in Swedish kronor excluding VAT.

*When expanding capacity, connection will be charged according to prices for the Existing Connection Point.

3 Monthly Charge - MRC

3.1 Access Charge

3.1.1 General information

The Access Charge is determined according to the section of the connection from its Connection Point to the selected nearest node and is based on several components:

- Price category - each Fixed Price Area has an assigned price category and is based on the coordinates of the Connection Point.
- Offering - selected offering, Single User, Multi User, Multi User Dual or Transport.
- Selected of 1,3 or 5 years.
- Whether or not the fibre connection is calculated as an additional connection. The charge for the additional fibre connection is presented as two rows in the invoice, a debit item, and a credit item. The total of these items is the charge shown in the price list.

3.1.2 Additional Fibre Connection

A fibre connection is an Additional Fibre Connection when it is connected to the same building to which the customer already rents a fibre connection with an offering for Telia Wholesale Fibre or the product Skanova Fibre Single. A reduced Access Charge is applied for an Additional Fibre Connection. The reduced Access Charge for an Additional Fibre Connection applies to the fibre connection of with the lowest charge out of the connections to the building, or the two lowest charges if three connections are rented, etc.¹
