

National Cascade Price List

2025-12-01

Interconnect operators

Rev: AV

Valid from: 2026-01-01

The National Cascade Price List covers national services and is provided in the attached PDF document.

The price list includes general standard rates for each traffic type in the first table, while any deviations or surcharges are shown in the subsequent table.

In addition, there is a separate price list for international destinations and an international numbering plan (XLS file format).

The operators listed below are those connected to Telia's network.

N= New information, C= Changed information, R=Removed information
